Dear Sir:

Applicants agree in part with the Examiner's statement for allowance in that the prior art of record fails to disclose or suggest the limitations noted by the Examiner.

However, the Examiner's statement does not reflect all of the language of each of the allowed claims. The totality of the language of each claim provides additional reasons for the allowance of each claim. Applicants further agree with the Examiner's statement that there is no motivation or suggestion to combine the references specifically noted by the Examiner.

Finally, Applicant respectfully submits that the scope of the claimed invention should not be limited by the Examiner's statement, but rather the scope of the
